

We are the Time Trekkers app and we develop fun games for children like you. By playing these games, we collect some personal data about you. Before you use our app, please read this to understand what we do with your data.

If you are under 13, we will ask your parent to give us that information for you. We will let your parent know how we keep your information safe. They can then give us their permission (consent) to collect that data from you. You will also be asked to give your permission to use our app or website.

**What is personal data?**

Personal data is any type of information about a person, like their date of birth or their phone number.

**What kind of information do we collect from you?**

We will not collect any information that can identify you. A special number will be linked to your data. This number will be known only to your parent and you.

We can also share it with other researchers, but they will never be able to say it's you. Your information will only be linked to the number you put in the app.

**How long will we keep your data?**

Your data will be kept indefinitely, which means as long as it will be useful for us to store it to develop more games.
